

# Penya d'es Migdia

ROUTE Monnàber Nou – Penya d'es Migdia

*Contemplate the valley of "Sant Miquel" from the height of the mountain of "Puig des Migdia" offers us magnificent views of the whole area around the hotel and enjoy the nature of the Mediterranean climate*

**6km unforgettable – 3 hours de pure trekking –  
780m of incredible sensations**

## INFORMATION

Short but pretty steep walk to the nearest peak of the Serra Tramuntana from the Monnàber estate. After a short stretch of beautifully mixed agricultural land of olive and carob groves we walk upstream of the usually dry torrent de Carrós. A steep trail through dense and spiny forest climbs up to the summit of the Puig Penya Migdia. From the summit you have stunning views of the inlands of Mallorca (Es Pla in Mallorquin). Our way back to the Monnàber estate goes over the same route. Although a short route, do not underestimate its difficulty; a steep and sometimes-slippery trail makes it a tuff climb.
