

Lluc – Binifaldo

Route Lluc – Moleta de Binifaldo

The mysticism and beauty of nature in the Serra de Tramontana unite in a concrete place in Mallorca, this place is Lluc. A view that obliges the heart of the island to feel and breath the original Mallorca.

10km – 3 hours – Family trip

INFORMATION

The monastery of Lluç is considered of being the most important religious sites in Mallorca; surrounded by the green slopes of the Serra Tramuntana it is a classic tourist sight of all kinds of tourists and Mallorcans. The back lands of the Lluç monastery are heavily forested and surprisingly quiet, only a few minutes from the monastery you will find yourself in another world. Here the extremely weathered limestone has created a beautiful landscape with extraordinary shapes. A nice and relaxed walk in the hinterlands of the monastery; you will have the opportunity to shortcut the walk from Bibifaldó back to Lluç or to add an extra climb to Coll de Pedregat. This walk is apt for the entire family and is a perfect match with a visit to the monastery of Lluç.

Preparation for the walk:

- Wear good shoes, preferably high mountain boots
- Always bring a head or scarf with for sun protection
- Sunblock best to be applied before starting sweating
- Bring enough water, minimum 2 liters per person
- Always bring a raincoat/something warm with you

Please consider the following:

- Do not leave garbage of any kind; take it with you
- Respect the trails and corresponding description
- Do not harm or bother wildlife and birds
- Do not make fire; be very careful with cigarettes
